ESSENTIAL FUNCTIONS:

- Recruiting and training entry-level biologists and interns collecting monitoring and experimental data, entering data into computer databases, completing analyses of information and reporting.
- Supervising and organizing schedules of biologists to meet contractual obligations and deadlines for restoration, mitigation and consulting projects.
- Managing budgets for restoration, mitigation and consulting projects.
- Work in concert with staff for the recruitment and hiring of River Partners professional level personnel
- Provide budget projections as requested by the accounting department and/or the executive staff.
- Developing data collection and monitoring protocols, experimental protocols and supervise / manage these activities on an ongoing basis.
- Collaborating with the field implementation department and assisting in the translation of the site specific design across the project area.
- Work with public and private sector biology, ecology, engineering and other professional staff to efficiently manage project implementation
- Develop and deliver presentations to the scientific community, government agencies and the public
- Securing permits from local, state and federal agencies.
- Completing site specific restoration plans, and project progress reports.
- Assisting in translating the site specific design across the project area for implementation.
- Develop forecasts of annual plant material needs throughout the region
- Plan and manage collection and maintain the inventory of native plant material
- Developing data collection and monitoring protocols, experimental protocols and supervise / manage these activities on an ongoing basis.
- Collaborating with the field implementation department and assisting in the translation of the site specific design across the project area.

- Working on educational activities for the public, as well as attending public events to promote the organization and its mission.
- Developing and delivering presentations to the scientific community and the public.
- Developing and maintaining good relations with agency personnel, contractors, and neighbors.
- Working long hours and/or weekends in a variety of field conditions.
- Traveling to multiple restoration projects for planning and monitoring, which may include, which may include River Partners' other branches.
- Other duties as required.

BASIC QUALIFICATIONS:

- M.S. or Ph.D. in biology, ecology, environmental science, or related science.
- Three years of appropriate work experience.
- Creatively solve problems and learn new skills.
- Demonstrate good organizational skills and ability to work under multiple deadlines.
- Driver's license with no restrictions.
- Possess the ability to communicate in basic Spanish (preferred, but not required).
- Proficiency with Microsoft Office.
- Ability to work effectively in a team environment

REQUIRED KNOWLEDGE AND SKILLS:

- Must enjoy working with diverse people and organizations to get things done.
- Creatively solve problems and learn new skills.
- Effectively communicate complicated biological findings orally and in writing.
- Possess knowledge of California plants, riparian ecology, hydrology, soils and /or wildlife.
- Possess experience working with California and Federal environmental permitting including NEPA/CEQA, ESA, CDFW Code, California Water Code, Clean Water Act Section 404/401, etc.
- Ability to work on both a team environment and independently.
- Demonstrate good organizational skills, ability to work under multiple deadlines, and flexibility to handle changing priorities.
- Experience managing budgets and general understanding of contracting.
- Experience collecting, organizing, and analyzing field data.
- Experience with MS Access or other relational database programs.
- Understand effective use of GIS information.
- Demonstrate an understanding of statistics, experimental design, and data collection.
- Ability to communicate in basic Spanish preferred, but not required
- Ability to read, understand, and follow oral and written instruction.
- Excellent verbal, analytical, organizational and written skills.
- Integrity and ethics beyond reproach.
- Commitment and enthusiasm to carry out River Partners mission.
